## 26. Provisions continued

### Empty leasehold premises

The empty leasehold premises provision relates to properties which, as at the Balance Sheet date, were no longer used for trading but were subject to a lease agreement. The provision is based on either known or forecast future rental expenditure; the rental payments are due to be made during the period 2008 to 2017.

### Compensation claims

Compensation claims relate to potential payments to customers for business written in the past by the Group's independent advisory business. The provision is calculated on the basis of a reasonable estimate of the size and expected timing of claims. External factors such as the performance of the stock market and market agitation could influence both the size and timing of payments.

### Restructuring costs

Other restructuring costs relate to redundancies and contract terminations which had occurred by the Balance Sheet date. The provision represents amounts expected to be paid in 2008. It also includes a provision for an insurance premium to cover the professional indemnity liability associated with businesses disposed of during 2004; the liability will run off over the next three years.

### Pension review

The pension review provision was established to cover compensation payable in connection with phases one and two of the pension review and also a review of free-standing additional voluntary contributions. The provision was fully expensed during the year.
